HARBOR-UCLA MEDICAL CENTER
1000 WEST CARSON STREET
TORRANCE, CALIFORNIA 90509-2910

Dear Applicant:

Thank you for your interest in our Pathology Residency Program. Below is information about the program, and a list of required application materials. We only accept the ERAS (Electronic Residency Application Service) applications.

Our program receives a large number of application inquiries, so we will not be able to interview all of the qualified individuals. We will give priority in consideration to persons who are currently medical students graduating in 2019 or 2020; who are currently interns in a transitional or other specialty residency program; who are international medical school graduates (IMGs) and have passed the United States Medical Licensing Exam (USMLE) Step 3; or who are state licensed physicians who have decided to pursue training in pathology. Please note, IMGs must also have qualified for entry into a California residency program (current ECFMG certificate), and have a current visa status allowing residency employment. The USMLE Step 3 examination is especially important for individuals who have not practiced clinical medicine in the past 3 years.

We look forward to reviewing your application. We will accept applications until December 1, 2019 for a residency position beginning on July 1, 2020. Interviews of applicants will be scheduled starting in October 2019 through January 2020.

Thank you again for your interest in our residency program.
