

Los Angeles County Harbor-UCLA Medical Center

SCHOOL OF RADIOLOGIC TECHNOLOGY

Program Goals

The program's goals include the following:

1. To identify and admit students with the capabilities to successfully complete a course of study in Radiologic Technology in accordance with the County of Los Angeles policy on non-discrimination,
2. To instill in the student good medical ethics and professional values, including the Code of Ethics as adopted by the American Registry of Radiologic Technologists, the American Society of Radiologic Technologists and Los Angeles County Department of Health Services Code of Conduct,
3. To provide a comprehensive clinical experience,
4. To provide an educational program that reflects the current status of the profession in a manner which addresses competency in the cognitive, psychomotor and effective domains, to prepare the student to function as a competent member of the health care team, to educate and graduate entry-level technologists to meet the community's needs, and to instill in the student the value of continuing education.
